LabCentral Loop Program Manager

Lynn Walder
Director, Executive Programming

*LabCentral
700 Main Street
Cambridge, MA 02139*

Lynn Walder is currently Director of Executive Programming alongside the Program Manager of the newly launched *Loop Program* at LabCentral, where she creates and manages executive-level programming in support of biotech CEOs and their unique business building journey.

Lynn has worked in a variety of administrative and project management roles across 10 different industries over a span of 20+ years (the past 15 years in the biotech sector). In her most recent roles of Director of Business Administration (LabCentral), Sr. Manager, Executive Operations & Internal Communications (FORMA Therapeutics), and Human Resources Coordinator (Vertex Pharmaceuticals), she has been able to blend an innate drive to build inclusive high-performance cultures through internal employee engagement & communication activities with her operational approaches to increase efficiencies across business departments and C-Level leadership teams.

She attended Boston-based Northeastern University where she secured a Bachelor of Science for Business Administration with a triple major in International Business, Management and MIS (Management Information Systems).
